

The Owingsville Outlook.

VOL. XXXII.

OWINGSVILLE, KENTUCKY, THURSDAY, NOV. 10, 1910.

NO. 18.

THE ELECTION.—At the early hour of going to press returns from Tuesday's election are meager. New York gave a large Democratic majority, the city of New York giving Dem., for Governor, 130,000 majority. W. J. Fields, Dem., for Congress in the Ninth district, defeats J. B. Bennett, Rep., by probably 1,000, while Langley, Rep., is re-elected over A. Floyd Byrd in the Tenth by from 700 to 1,400. It is reported that the telegraph and telephone wires all over the country are cut.

Fields carried Bath county by about 150 majority.

HISTORICAL SKETCH OF A REMARKABLE MAN

Rise of John C. C. Mayo, the Man Who De-
veloped Resources of Eastern Kentucky.

Fairview, Ky.—Does the world owe more to its dreamers than its doers? The men and women who have seen visions have ever blazed the path from chaos to law and order. With the power of a loyal faith the doers have followed the path and wrought out the mighty facts of progress. In our political history the precepts of the one and the deeds of the other are duly recorded within the halls of fame. But in our industrial history the laurels have been few for the strong spirits who have wrestled from nature the comforts that we enjoy.

This is a story of industrial conquest.

\$250,000 Residence, One of the Handsomest Places of Eastern Kentucky.

ed from this point of the story Mr. Mayo ceases to be a dreamer and becomes the doer. With rare acumen and untiring energy he organized companies, pierced the mountains with his shafts and brought forth the wealth of coal that his dreams had pictured there. In four years he had risen from an obscure school teacher with neither money nor credit to a multimillionaire and one of the nation's greatest captains of industry.

The acquisition of a large fortune by a small man is a misfortune to all concerned, but in 1890, Mr. Mayo was too big to be so called by success. He still moves alone, if his old friends and neighbors with the same spirit of democracy that made his life.

As they love to see John Mayo's life first place in history.

AXLE OF AUTO BROKE

Roosevelt Auto Deals Out Death and Injury

New York.—When John Ellis Roosevelt, a cousin of ex-President Roosevelt, lawyer, attempted to drive his automobile ahead of one driven by Henry Sanderson, a broker, while the two, each accompanied by friends, were racing, the forward axle of Mr. Roosevelt's car broke, the car whirled in a half somersault into the ditch and then slid over the top of the tunnel for fully 50 feet. Alexander E. Ebbel, Mr. Roosevelt's chauffeur, was instantly killed. John T. Still had both arms broken, George H. Robinson sustained a fractured rib and possibly internal injuries, and Mr. Roosevelt, who was knocked unconscious by the fall from the overturning car, had his head and face badly lacerated.

PLAN 1911 EXPOSITION.

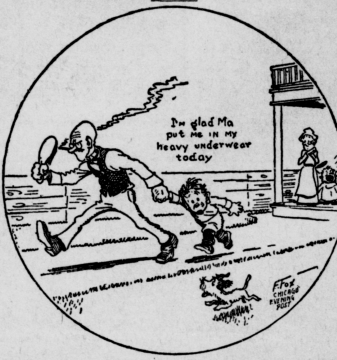

Knoxville, Tenn.—At a recent meeting of the directors of the Appalachian exposition, the capital stock was increased to \$250,000, and they decided to hold another exposition in 1911. The exposition held this fall was successful from a financial and every other standpoint and has already resulted in materially increasing the prosperity of Eastern Tennessee.

Wore Dead Man's Hat. Columbia, Ga.—Wearing the dead man's hat, Bob Jiles, a white man, 63, led a posse into the woods and showed them the body of J. Thompson, of Phoenix City, Ala. A bullet hole back of the ear showed how Thompson died. Jiles was arrested when one of the posse stated that he saw Jiles furiously toss a pistol into some bushes. The pistol was found, one of Thompson's sons identifying it as his father's. Jiles was charged with the murder.

First Mexican Derby. Mexico City.—The first Mexican derby, for a purse of \$8,750, was run in the presence of a crowd estimated at 15,000. The race was under the auspices of the Mexican Jockey club. Star Rye, the entry of T. R. Crump, won, his time being 2:45. Gore, entered by Amor Brothers, was second. Tecuac, property of Gov. Landry Escandon, ran third. The second derby will take place in November, 1911.

Out of Work, Shot Himself. Philadelphia.—Discouraged because out of employment and unable to marry Miss Nellie Calahan on Thanksgiving day as planned, Lafayette Maddox, 35, shot himself through the head, when riding in a street car with her and died almost instantly. Maddox pleaded with her to end her life with him, and she refused.

EVERY LITTLE BIT HELPS

SETTLERS HELD UP

NINE RANGERS HELD ON RE-MARKABLE CHARGES BY FEDERAL GRAND JURY.

INSANE ASYLUM A WEAPON

One Homesteader is Said to Have Been Rattled to Insanity After the Ranch Owners Had Destroyed His Home and Machinery.

Omaha, Neb.—Indictments returned by the federal grand jury against nine ranchmen of western Nebraska were made public. The indictments charge conspiracy to drive from their claims homesteaders who took sections of semiarid land under the Kinkaid homestead law.

The men named in the indictments are Perry S. Yeast, his son, Frank W. Yeast, Leslie E. Ballinger, M. C. Hubbel, Emil Anderson, Willmot Z. Emerson, Harry Sut. Boone B. Hawthorne and Dr. H. Doctor Huff and Dr. H. Doctor Huff and Dr. H. Doctor Huff.

The men named in the indictments are Perry S. Yeast, his son, Frank W. Yeast, Leslie E. Ballinger, M. C. Hubbel, Emil Anderson, Willmot Z. Emerson, Harry Sut. Boone B. Hawthorne and Dr. H. Doctor Huff and Dr. H. Doctor Huff.

AIRSHIP WILL CARRY MAIL

GOVERNMENT GIVES A PERMIT FOR FIRST TIME.

Aviator to Bear Passengers' Letters From Outgoing Liner to New York Post Office.

Washington.—For the first time in history, the United States government has given its sanction to the transportation of the mails by an airship.

Permission was granted by Postmaster General Hitchcock for J. A. McCurdy to carry the United States mails in this manner from the outgoing transatlantic liner Kaiserin Augusta Victoria to New York next Saturday when that vessel is fifty miles at sea.

The mail pouch which McCurdy will carry from the liner to the New York post office will contain letters from passengers of the steamship for transmission to different parts of the world.

The only condition imposed by the postmaster general on this first sanctioned transmission by airplane of United States mails is that the writers of all such letters so transmitted must have notice that the mails to be so transported are to be carried by an airplane.

condition the government is responsible for the safety of the mails while they are in the air.

KENTUCKY GLEANINGS

WHAT IS GOING ON IN DIFFERENT SECTIONS OF THE COMMONWEALTH

VISITED SIX TOWNS.

Robbers on Motorcycles Secure Loot Over Considerable Territory.

Danville.—Burglars mounted on motorcycles made a raid of six small towns in Boyle county, covering a stretch of 34 miles.

James Lee, a merchant at Eubank, 30 miles south of Danville, was the heaviest loser, the desperadoes securing \$800 in cash.

The postoffice at Morehead was robbed of \$50 in cash and several hundred dollars' worth of stamps. At Shelby City the burglars broke a shutter of the postoffice building and were frightened away.

At Junction City the robbers were shot at by a young man who occupied the second story of a building. At Danville they attempted to break into a restaurant on Beatty avenue, but were frightened away.

DISTILLERS' REPORTS

State Auditor Insisting on the Legal Preparation of the Papers.

Frankfort.—When State Auditor James completes his list for 1910 of the report of distilled spirits he will have on his books a fair cash value of every barrel of whisky produced in Kentucky, a value of what it would sell for at a voluntary sale. Some of the distillers are very obstinate and do not care to make this list. Auditor James has had to send the list back to some of them several times, and will invoke the law if the distillers do not make out the report or list in accordance with the Kentucky Statutes.

The distillers see what is coming off. They know that James' purpose is to get information that will lead to an increase in their assessment. The whisky is assessed now at \$19 a barrel, although the fair cash value is placed on much of the whisky at \$25 a barrel. Some estimates run as low as \$2.50 a barrel, and this makes James laugh.

Hodgenville.—Citizens of Buffalo were given an opportunity to subscribe for stock in the proposed Glasgow-Hodgenville electric line. More than \$2,000 was subscribed, and this one town alone promises to pass the \$5,000 mark. The road will be carried through as now proposed, through the Libbards farm and eventually be linked with the proposed road from West Point to Elizabethtown, thus giving a direct line into Louisville.

Louisville.—Lieut. Col. George A. Kim, one of the most noted engineers connected with the United States government, and who formerly was engineer in charge of the Louisville district, has been transferred to the Chicago district, and will superintend the building of the Chicago harbor, the largest and most important problem before the war department with the exception of the Panama canal.

Atlanta.—Within a few weeks of liberty, after serving more than four years of a five-year sentence in the federal prison, Henry H. Davis, of Kentucky, was killed when he fell from a scaffold around the new administration building at the prison, a distance of forty-four feet. Davis was convicted of counterfeiting.

Padschak.—"Good-bye, dear; I don't feel very well tonight; perhaps you'll be following my coffin to the cemetery tomorrow," were the parting words of Dr. F. F. Duley to Miss Marie Cunningham, fiancée, as he left her home. He suffered a fatal hemorrhage in a few hours.

CRITICISES THE LAW.

Higher Court Says the Remedy Lies in the State Legislature.

Frankfort.—Although outlived as a harsh law, the court of appeals upheld the statute giving the furnisher of material for a building a lien on the building, notwithstanding the fact that the owner of the building had paid the contractor for the material.

Kentucky Intelligence

Boatville.—News reached here of the death of J. J. Hanger, in New York, of a falling log in a dynamite.

Theodore H. Daddens.
